

# Pure Bamboo Water

naturally enriched

Organic Bamboo Industries AG  
[welcome@organicbamboo.org](mailto:welcome@organicbamboo.org) +41 79 218 84 61

# Highlights

Pure Bamboo Water is the **vacuum extract** from fresh cut bamboo. There is **no solvent used** to extract the water from our bamboo. The output is **100% pure plant water, naturally enriched**. Pure Bamboo Water is the best choice if you want to **replace your production water** in cosmetics by a pure plant water.

- Most advanced vacuum extraction without solvent
- **Unique flavor, 100% pure**
- Wide range of application
- **Swiss reliability and traceability**
- Sterile filtration and aseptic packing
- **All year round production**
- Stable source of raw material
- **Highly industrialized production, best price**
- Worldwide distribution

# New choice for new demand

## No-Water-Formulations is a new demand!

More and more consumers are seeking out alternatives to water in their personal care products. **Bamboo Water is the purest and most energetic plant water you can get.**

Pure Bamboo Water can be extracted **>300 days/year**.

Most other plant waters can only be harvested for some weeks a year.

*„Thanks to the all year green bamboo and our own forest management we can guarantee you to provide bamboo water all year round fresh – also in very big quantities.“ Christian Gerig, Founder & CEO*

## Harvest time of different plant waters

	winter	spring	summer	autumn
Birch Water		 <30 days/year		
Maple Water		 <30 days/year		
Bamboo Water		 >300 days/year		

# Applications

## Replace your production water by Pure Bamboo Water!

Pure Bamboo Water is a **clear liquid** and therefore ideal to replace your production water in **all kind of personal and home care products and beauty drinks**.

Compared to other plant waters Pure Bamboo Water has also some functional ingredients as bamboo flavonoids.

### More applications:

- Lifestyle drinks
- Skin care products
- Mouthwash
- Shower gels
- Facial steam
- Wet wipes

Heat treatment < 120 °C	✓	no

# Our advantages

## Swiss reliability

Organic Bamboo Industries AG is **founded in St. Gallen Switzerland** by 5 Swiss men in 2012, with sub-company in WuYiShan, China.

## Traceability

Our company is the world's first vertically integrated bamboo enterprises. One of the main target is the forest management. The hidden secret of our Bamboo Water is our ancient bamboo forest, where millions of bamboos are connecting into a giant organism by their roots. Bamboo accumulates the power from the sunlight and the earth to grow. **Bamboo forest is historic heritage. We say NO to plantation!**

## Sustainability

Different from artificial cultivation to get single plant, **we follow no-fertilizer, no-pesticide way to keep wild and mixed forest.** We protect local original forest ecosystem by sustainable development and production methods that are entirely traceable.

# Bamboo in China

China is the country with the most abundant bamboo resource. Bamboo has deep connection with the development of Chinese culture. Chinese people is well in applying bamboo and bamboo is wildly used in China. **The history of bamboo application could be traced back in 5000-6000 years ago in the Neolithic Age.** From the ancient bamboo slip, bamboo paper etc. to numerous bamboo products nowadays, we could see the high value of bamboo. Bamboo is treasured, in Asian, it has long history as food and drug, which is recorded in Chinese "Compendium of Materia Medica". The modern medicine shows that bamboo water is rich in flavonoids, polysaccharide, polyphenol, polypeptide, amino acid and micro-elements; **the function of anti-aging and anti-oxidant is close to tea polyphenol, higher than Vc; the function of anti-bacterial, anti-viral, anti-inflammatory and anti-allergic is close to tea polyphenol; the function of preventing cardiovascular and cerebrovascular diseases , reducing blood lipid and blood cholesterol is better than Semen Ginkgo extract.**

**Pure Bamboo Water is an ideal natural antioxidant and health product.**

# Bamboo in Wuyishan

There's about 5,301,000 hectare of bamboo forest in China, which is increased by 100,000 hectare every year. Our forest is located in WuYiShan, which is the world's famous Nature and Culture Heritage. The average latitude of our forest is BTW 600-800m, which is the best environment for bamboo to grow.

Our bamboo forest is located in the Wuyi mountain in south-eastern China. Every single drop of Pure Bamboo Water culminates the mystic power of bamboo, the uniqueness of its living environment, and our great passion for this amazing plant.
